

Utah Students Connect Online Learning

Jordan School District is a member of Utah Students Connect. USC is a consortium of 7 school districts that provides online learning opportunities to students enrolled in its member districts. Jordan School District students can enroll with USC courses for original or recovery credit.

How it works

Students can enroll in courses with USC to supplement or replace part of their normal school schedule and take those classes from home. Classes are offered during the school year as well as during the summer. Students interested in taking online courses with USC should meet with their school counselor to discuss registration.

Online Learning **The NOW Big Thing**

Online Learning

Flexibility

Students can take classes not offered at their school or during the period they want to take them. They can learn what they want when they want to learn it.

Variety

Students can take required courses online to free-up time in their schedule to take additional electives at the school. They can get more out of their school experience.

Convenience

Students can work from home for part of their school schedule. Not only can they choose what they learn; they can choose where they learn.

Contact us or your school counselor for more information or to register.
